

# CUT 103

- Display: Increases cutting capabilities and speed;
- Pilot Arc Controller: Increases cutting capacity and speed;
- Protections: Equipped with temperature, voltage and current sensors for high protection;
- Works with standard compressed air compressor

- Supplied with torch, nozzles, electrodes, hose cables and category 5 goggles to protect against splashes and metal particles.

MODEL	CUT 103
SUPPLY VOLTAGE (V)	3~400
NOMINAL INPUT CAPACITY (Kw)	14.5
INPUT CURRENT RANGE (A)	28
EFFECTIVE CURRENT (A)	28
DUTY CYCLE (40°C 10MIN)	100% 100A
PILOT ARC VOLTAGE (V)	420
WELDING CURRENT RANGE	20~100
SEPARATION CUT (MM)	CARBON STEEL <60
DIMENSIONS (MM)	650(C) x 250(L) x 420(A)
WEIGHT (KG)	30.5
PRODUCTION CUT (MM)	Carbon steel: 45 / Stainless steel: 45 / Aluminum: 36 / Copper: 25
