

CUT 40 PA

- Pilot Arc Controller: Increases cutting capabilities and speed;
- Weight: reduced weight and size, easy to transport;
- Protection: Equipped with temperature, voltage and current sensors for high protection;

Model	CUT 40 PA
Supply voltage (V)	160~275
Nominal input capacity	4.9
Input current range (A)	32
Effective current (A)	24,8
Duty cycle (40°C 10 min)	60% 40A 100% 30A
Cutting current range	20~40
Separation cut (mm)	Carbon steel <25
Weight (Kg)	6,2
Dimensions (mm)	460x146x278
Production cut (mm)	Carbon steel <20 Stainless steel <20 Aluminum <16 Copper <12
