

CUT 65.3

- Duty cycle: over 90%
- Weight: reduced weight and size, easy to transport;
- Protection: Equipped with temperature, voltage and current sensors for high protection;

Model	CUT 65
Supply voltage (V)	3~400
Nominal input capacity	7.8
Input current range	18
Effective current (A)	17
Duty cycle (40°C 10 min)	90% 65A 100% 61A
No-load voltage (V)	450
Cutting current range	20~65
Separation cut (mm)	Carbon steel <35
Cutting current range (A)	24
Dimensions (mm)	640x240x445
Production cut (mm)	Carbon steel <25 Stainless steel <25 Aluminum <20 Copper <14
